

DJ Controllers

CMD TOUCH TC64

Clip Launch Controller with
64 Buttons and Multi-Color LED Feedback

- Clip launch controller for triggering audio clips and MIDI events
- Intuitive 8x8 clip launch grid with navigation, mix and track control buttons
- High visibility multi-color LED feedback shows status of each button
- For use with Ableton Live* or other music production software
- Novation Launchpad* compatibility mode
- USB bus-powered compact design for ultimate portability
- Compatible with Apple iPad* via USB Camera Adapter
- Class-compliant MIDI-over-USB protocol for "plug and play" operation
- 3-Year Warranty Program*
- Conceived and designed by BEHRINGER Germany

The CMD TOUCH TC64 is a powerful music controller that enables you to create music or mix tracks via its ultra-intuitive, 64-button multicolored launch grid – which provides instantaneous feedback on each button's status. CMD TOUCH TC64 works seamlessly with Ableton Live* and virtually any other DAW software, so you can produce truly professional tracks that are simply amazing!

Thanks to TC64's Launchpad compatibility mode, you get complete functionality within Novation's Launchpad* app for iPad – a standalone performance app that not only lets you create and record your music, but share to it instantly using your iPad. And since it's bus powered (no external power required), the TC64 is completely portable – just connect to your computer or iPad via USB and take it anywhere.

Clip Master

The TC64 is the ideal clip-triggering and MIDI event controller, with 64 buttons that are brilliantly backlit in multiple colors and respond to MIDI feedback. All the performance buttons are laid out in an 8 x 8 grid and conveniently color-coded, so you always know what's going on. Across the top and down the right side, you'll find 16 additional buttons for Mode (TOUCH TC64 and Novation Launchpad S emulation), navigation, Session, User 1 & 2, Mixer, Track control and more.

A Stand Alone Controller

Whether you're a DJ, producer, recording engineer, or hobbyist, the CMD Touch TC64 makes getting a hand on your software easy and affordable. Designed to work as a standalone controller for a wide range of DJ and production software titles, TC64 provides everything you'll need right out of the box, allowing you to trigger and manipulate clips, loops, effects and control your mixer – plus much more.

Get Connected

The CMD TOUCH TC64 connects directly to any available USB port on your Mac* or PC using the supplied USB cable. You can also connect to an Apple* iPad* or other iOS device via either the Apple Lightning* to USB Camera Adapter, or the Apple iPad Camera Connection Kit USB adapter for older 30-pin devices. And the TC64 provides fully class-compliant MIDI operation, so there are no additional drivers to download – just connect and go.
