TSW-UMB-60

Universal Mounting Bracket for TSW-x60 Series

The TSW-UMB-60 provides an easy in-wall mounting solution for a Crestron TSW-560, TSW-760, or TSW-1060 touch screen. Because it fits all three touch screen models, it allows the touch screen device to be changed at any time without having to cut or patch the wall. It can even be installed before the touch screen model and screen size has been selected.

The TSW-UMB-60 is also compatible with the TSW-560P touch screen when mounted in a portrait orientation.

Note: Model TSW-560 and TSW-560P touch screens each ship with one TSW-UMB-60 included.

By itself, the TSW-UMB-60 provides a post-construction solution for retrofitting the touch screen into existing drywall. It is also suitable for use in a lectern or podium. For pre-construction wall mount applications, the TSW-UMB-60 can be used along with a TSW-UMB-60-PMK or TSW-UMB-560P-PMK Pre-Construction Mounting Kit. Masonry and concrete applications are accommodated using the TSW-UMB-60 along with a TSW-UMB-60-BBI back box.[1]

SPECIFICATIONS

Construction

Metal bracket and clamp assembly

Mounting

Required Cut-Out: 2-1/5 in (56 mm) high x 3-3/4 in (96 mm) wide
Maximum Surface Thickness: 1-1/4 in (32 mm)
Minimum Mounting Depth: 2-13/16 in (72 mm)
