

Whether it's on-stage or in the studio, Furman Pro Plugs give you the protection you need. With surge protection, noise filtration, and diagnostic lighting, you can trust Furman Pro Plugs for reliable, clean, and protected power. Our products have saved billions of dollars worth of equipment from power problems, and our innovative technologies maximize system performance.

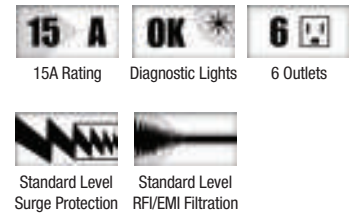

Six outlet power conditioners with standard surge protection, EMI/RFI filtration, heavy duty steel construction, and 15 ft. power cords.

The SS-6B-Pro includes the Furman EVS (Extreme Voltage Shutdown) technology that will disconnect the power conditioner from the AC mains to protect your connected equipment as well as itself. The high shutdown is set at 140 Vac +/- 5% while the low shutdown is set at 95 Vac +/- 5%.
