

The BenQ TK800M 4K Home Entertainment Projector

Your Sideline Pass to Stunning Sports Action

The BenQ TK800M Home Entertainment DLP® Projector takes the thrill of the Big Game watching experience to stunning heights, giving sports fans the best seats in the house. With 8.3 million pixels of True 4K UHD HDR 4K resolution, 3000 lumens for well-lit rooms with ambient light, and separate modes for indoor and outdoor sports, you'll be in the middle of the action whether you're watching the Stanley Cup or the World Cup. Get in the arena with 4K picture sizes up to 200 inches with awe-inspiring clarity, crisply defined details, vivid color; and enhanced sports sound mode for a dynamic viewing experience.

Legendary BenQ 4K

Evolving from the TK800, the TK800M features Texas Instruments' latest 0.47" DMD for sharp picture performance and auto-select 3D timing for an immersive 3D experience.

4K UHD True 8.3 Million Pixel Perfection for Awe-Inspiring Clarity

The TK800M is built with TI 0.47" DMD to achieve CTA's 4K UHD specification, reaching 3840 x 2160 resolution with 8.3 million distinct pixels for each frame, delivering a larger than life experience into your home.

High Brightness for Ambient Space

An ultra-bright, 3000-lumen lamp enables captivating viewing in relatively bright settings – even with the lights on. Perfect for living rooms, the TK800M is vivid for marvelous movies, too, in a room bright enough to see the wonder on your friends' and family's faces.

HDMI 2.0 and HDCP 2.2 for a Fast, Secure Connection

The HDMI 2.0 / HDCP 2.2 connection means you'll be able to stream 4K content through the TK800M at a frame rate of 60Hz with a secure connection between your source and the projector. The port allows for increased bandwidth required of 4K content, so you'll catch every light and dark detail of the game in the beauty of 4K. With the HDMI 2.0 / HDCP 2.2 port, your TK800M will be forward-compatible with the latest video technologies as they're released from manufacturers for years to come.

HDR10 | HLG to Enhance Dark Scenes for a More Vivid Experience

The TK800M HDR supports 10-bit color depth in 4K HDR content. The HDR (High Dynamic Range) provides a more dynamic color range, deeper blacks, and a higher contrast ratio than SDR. HLG (Hybrid Log Gamma) capability future-proofs the TK800M for developments in 4K broadcast providing a broader range of colors and brightness.

New 4K Color Wheel for Vivid Views

The TK800M features stunning color performance by introducing a new 4K RGBW color wheel to achieve 96% Rec. 709 color space without reducing brightness dramatically and to provide vivid color in an ambient light viewing space.

A Sport for Every Season, A Mode for Every Sport

Football Picture Mode (Outdoor Sports) and Sport Picture Mode (Indoor Sports) The exclusive TK800M outdoor and indoor sports modes provide ultra-realistic skin tones and lush green grass for open-air stadium contests, and ultra-realistic skin tones and a warm tonal palette with balanced greens and blues for delivering larger than life projection of indoor events.

Installation Flexibility Gets You to the Arena Faster

Following the BenQ Setup Wizard step by step, the TK800M can deliver a 100" 4K image at 3.32 meters (10.89 feet) and Auto Vertical Keystone correction makes it simple to project ideally aligned images from a variety of locations.

Simple and Convenient for Your Lifestyle

The TK800M features a lightweight design and a sleek, compact profile. It's the highest projector technology wrapped in beautiful aesthetics, intuitive functionality, and eco-friendly design. A chic addition to your living room décor, the TK800M makes it simple and comfortable to present immersive entertainment for friends and family.
