

An imperceptible bezel. An obvious choice.

VHR-R Series Razor Narrow Video Wall

Be big, be beautiful, be seamless. The Samsung VHR-R series video wall features razor-thin bezels of just 0.44mm, for a bezel-to-bezel width of just 0.88mm. That's three one-hundredths of an inch. The result of this barely there bezel is a seamless video wall with incredible impact, whether in a board room, control room, retail space or anywhere else you want your audience to focus on the image. Along with advanced picture enhancement technology and wide viewing angles, the VHR-R series delivers a captivating and seamless experience. And its modern, slim design enhances any business environment.

Key Features

Nearly Invisible 0.44 mm Even Bezel

An exceptionally razor-thin 0.44mm even bezel enables content to be displayed as one immersive, seamless image, eliminating distortion.

Bright Non-Glare Picture Quality 24/7

An impressive 700-nit brightness and non-glare panel provides high visibility 24/7, regardless of ambient light.

Image Enhancement Technology

Samsung's powerful picture enhancement technology ensures all content is vibrant and clear. With Picture Enhancer mode, color saturation and contrast are improved by adjusting the gamma curve. Black Equalizer mode lightens dark images so details are easier to see.

View Content from Any Angle

Wide viewing angles allow viewers to get clear and accurate information, regardless of video wall layout or location.

Modern, Slim Design

The VHR-R display features an ultra-slim depth of less than 2.75". It saves space and creates a clean, modern look for retail or other public spaces.

Accurate, Factory-Calibrated Color

Samsung's multi-step factory calibration process tunes video walls to uniform brightness and color throughout multiple displays.

Easy, Cost-Saving Mobile Calibration

Color Expert Pro Mobile lets even non-experts easily calibrate the white balance of a video wall (up to 5 x 5) simultaneously with a mobile camera.

Powerful UHD Viewing Experience

With daisy chain design utilizing DisplayPort 1.2 and HDMI, the VHR-R display can project UHD content across multiple screens up to 5 x 5, without requiring an external graphics card or UHD splitters.

Three-Year Warranty

A 3-year warranty means extended peace of mind.

Samsung VHR-R Series Razor Narrow Bezel Video Wall

		VH55R-R	
Panel	Screen Size	55"
