GR4
4 ZONE MIXER

The GR4 is a 4 zone mixer in a 1U chassis.

Dip switches allow for simple setup – no PC needed. GR4 can be remote controlled thru the PL-14 remote controller or any Logic remote.

GR4 offers 4 stereo inputs and 4 mic inputs with analogue EQ on industry standard Phoenix connectors, plus 4 zone outputs.

GR4 can control 2 stereo zones and 2 additional mono zones (4 zones total).

Other features include primary and secondary mic modes, EVAC mode for alarm situations, and jukebox mode (setting a priority line input to override background music).

Key Features

- 2 Stereo zones, 2 mono zones
